

TECHNICAL PROGRAM

Manitoba vs. the World – Challenges and Success of U of M Engineering Student Competition Teams

Hosted by Walter Czynnyj, P.Eng., (Magellan Aerospace) Chair of the Friends of Engineering, this session will feature:

1. Marc Pelland, Executive Chair of UMSAE, the world's largest student chapter of SAE (Society of Automotive Engineers),
2. Lindsey Pike, last year's president of the U of M Steel Bridge Team on their return to international competition, and
3. James Harper on how he and other engineering students on the new Eco-motion team are preparing for their first competition designing, building, and testing ultra-energy-efficient vehicles.

Dean Beddoes will close the session with an exciting update on design space for these teams.
