The Discipline Committee is responsible to the Council, through the Executive Director, for deciding appropriate discipline of members of the association charged with offensive conduct, as required by By-law 43.

Last year the Discipline Committee recommended discipline to a member which led to them being suspended from the association and being fined. However, a number of administrative issues arose from the process. This resulted in a review of the by-laws to consider changes to ensure future proceedings are more effective.

Thanks to those members who worked on the latest discipline effort.
