

Membership Profile and Vital Statistics

Over the last 20 years, APEGM (previously APEM) has experienced steady growth in its membership to meet the engineering and geoscience needs of Manitobans. The association membership has grown from 3057 registered members in December of 1987 to today's membership of 4570 (June 30, 2008), an increase of 49.5%. Much of this membership growth has occurred in the last three and a half years (17.3%).

Membership Status	Dec. 1987	June 2008	
Registered Members	Eng.	Eng.	Geo.
Practising	2552	3808	226
Retired	483	341	9
Life Member	22	131	4
Deferred Dues	0	47	4
Total Registered	3057	4570	
Members-In-Training (EITs and GITs)	54	774	21

Of the current total APEGM registered membership, 31.6% reside outside of Manitoba, 88.3% indicate that they are Practising, 7.7% are Retired and 5.3% are Geoscientists. In addition to registered members, APEGM has 795 members-in-training (774 EITs and 21 GITs) and 224 assessment candidates (geoscientists and foreign-trained engineers seeking registration).

Of the 2787 Practising members resident in Manitoba, 76.9% live in Winnipeg. 15% of resident practising engineers are 60+ years of age, while 26.9% of Manitoba resident geoscientists are 60 or older. Of all practising members (resident and non-resident), 25.6% of engineers and 35.8% of geoscientists are over 55 years of age.

Women make up 6.7% of the practising engineers and 11.5% of the practising geoscientists registered with APEGM. They currently make up 16.5 % of EITs and 42.9% of APEGM's GITs.
