

Westman Chapter - Annual Activity Report (August 2007 - July 2008)

D. Ford (Chair)

Members:

K. Kotyk (Secretary)

L. Turabian (Treasurer)

D. Riddoch

D. Nicholson

The Westman Chapter professional development luncheon series began in November 2007 when Pat Versavel gave an overview of the "Behlen Industries Upgrade"; then in December 2007 Robert Edgar (a Heavy Equipment Mechanics graduate from Assiniboine Community College in 1973) made a presentation on the "Winnipeg Airport Authority Redevelopment Program".

Our thanks to those Westman members who attended our Chapters two professional development luncheons, to the volunteers who staffed the APEGM/UofM Engineering display and talked with students at the spaghetti bridge competition during Brandon Career Symposium in March 2008, to the judges who assisted with the Western Manitoba Science Fair, and to the hard-working Executive (see above) who helped organize all those activities. We also acknowledge the support of Behlen Industries, the City of Brandon, Samson Engineering, and the Department of Highways for allowing us to use their facilities for our Executive meetings.
