

AWARDS CONFERRED AT 1974 ANNUAL MEETING  
ASSOCIATION OF PROFESSIONAL ENGINEERS OF MANITOBA  
30 NOV 1974

OUTSTANDING SERVICE AWARD

1.0 The terms of reference for the Outstanding Service Award provide that recipients shall be members of the Association of Professional Engineers who have performed outstanding service to the Association, including service on the Certification Board or the Panel of Examiners of The Manitoba Society of Certified Engineering Technicians and Technologists Inc.

1.1 To --- Malcolm Needham Collison BSc MScME, P.Eng.

As contact with the remote areas of our province has always been difficult to maintain on a uniform and continuous basis, and as it is so important to our members to develop a sense of unity with the Association, the Award is conferred on Mac Collison in 1974 in recognition of fifteen years of faithful service as Flin Flon reporter to the Bulletin.

(Who knows, he may take up a like position in Toronto as our foreign correspondent in the near East!)
