

Title: Welding Engineer – CWB Consulting

Location: Work from home (Winnipeg, MB, Regina, SK)

About Us:

The CWB Group is an industry supported private sector organization providing welding certification, management systems registration and training services to over 7600 companies in 34 countries. Supported through CWB Certification, CWB Education, CWB Registration, CWB Consulting, and the CWB Association membership, the CWB Group provides a comprehensive and integrated service to the welding and joining industry. Headquartered in Ontario, Canada, with staff and offices across the country, the CWB Group is accredited by, and operates under the authority of, the Standards Council of Canada (SCC) as a Certification Body for the administration of Canadian Standards Association (CSA) welding related standards.

CWB Consulting is a welding engineering and technical group of experts, sharing its knowledge and training to support you in achieving your goals of welding performance. Our optimized solutions are in full conformance with recognized welding codes from CSA, AWS, ASME, etc.

As an industrial leader, CWB Consulting will provide our clients with technical skills and targeted solutions in a timely, cost effective manner.

About the Job:

The Welding Engineer is responsible to meet all certification requirements for our clients. These duties include conducting Retained Engineer's visits on a regular basis and completing the required reports. Other duties include helping generate sales, the generation of welding procedures, training and completing welding consulting projects for clients throughout Western Canada. This includes liaising with owners, engineers, CWB Representatives, and current and prospective clients.

This position reports to the Manager, CWB Consulting and will work out of their home office in any of the following regions Regina to Winnipeg servicing our clients in Western Canada.

Required Qualifications:

- Professional Engineer accreditation
- 5-10 years' experience in the Welding Fabrication, Inspection industry, or in Welding education
- Accredited welding engineer under the requirements of CSA W47.1, W47.2, W186
- Technical background and technical knowledge of the welding and joining industry
- Level 1, or 2 Welding Inspector certification would be an asset
- Bilingualism in English and French is preferred
- Excellent interpersonal and communication skills
- Strong presentation skills
- Ability to work with minimal supervision
- Ability to work with computers on a regular basis
- Possess a valid driver's license, must be able to travel in territory, use of personal vehicle is required.

Please submit a cover letter and resume in writing to Human Resources recruitment@cwbgroup.org or faxed to 905-542-1318 before Friday October 18th, 2019. Visit us online www.cwbgroup.org

Thank you in advance for your application, you will only be contacted if you are selected for an interview.
