

Project Manager, South Saskatchewan River Project (SSRP)

Technical Services Division

Competition Number: WSA-57-2019/20

Location: Moose Jaw or Saskatoon, SK (*Location will be based on suitability of candidate(s) along with business requirements*)

WSA owns and operates 72 dams in the province, ranging in size from large, like Gardiner Dam that forms Lake Diefenbaker, to small earth dams and in-stream weirs. These dams provide water supplies and recreation and also mitigate the effects of flooding. You will be part of the team that ensures all of our dams are operated and maintained in a way to maximize their benefits for the citizens of Saskatchewan.

You will provide corporate leadership and management representation at Gardiner Dam and be responsible for leading dam site personal through the development and execution of appropriate plans in coordination with technical experts to ensure operational readiness and ensure the current conditions are improved through maintenance and rehabilitation work, planning tracking and reporting, and health and safety standards are followed.

You will work among a diverse and passionate team of professionals, both internal and external to WSA, in the fields of engineering, engineering technology, water quality, ecology, law, sociology, public policy, local governments that are leading this exciting challenge in our province.

The successful candidate shall possess a degree in Civil Engineering or a similar engineering discipline, a licence to practice professional engineering from the Association of Professional Engineers and Geoscientists of Saskatchewan (APEGS) and 10 years of related experience.

Note: Candidates that do not possess an Engineering degree but have formal post-secondary education over 2 years and 10 years of related work experience are encouraged to apply and will be considered at a Management Class 6. You can email Human Resources for details.

An innovative approach to Water Management

Meaningful work

If you want to feel great about the work you do, you've come to the right place. If you care about water and about our environment, we may have just the career for you.

Room to grow

Interested in new challenges and learning opportunities? You'll find them here.

Opportunities to thrive

We believe work should be fulfilling, but not all-consuming. We support balance between career and personal life.

We're outdoorsy

If you love to be outdoors, many of our regional locations are just steps away from spectacular environments. As 'environmental enthusiasts' we work to protect the balance between human activities and nature.

Benefits

We offer an attractive compensation and employer-funded benefits package. After a rewarding career, our employees retire with a generous pension.
