

STRUCTURAL

Composite Technologies Ltd

"Designed with Innovation in Mind"

Re: APEGM Westman Chapter fall and winter luncheon presentation on the 21st of November, 2014 at the Victoria Inn, Brandon

SCTL is headquartered in Winnipeg, Manitoba with a 55,000ft² facility situated on 7+ acres and is one of longest-standing, privately owned, Fibreglass Manufacturers in Canada and North America.

Since 1961 **SCTL** has been servicing clients from multiple sectors including mining, oil & gas, chemical, water and waste water treatment, utilities and construction industries to name just a few.

SCTL can produce multiple quantities through our manufacturing process or a completely "one-of-a-kind" custom product to suit your needs.
