Now That I have a Recognized Degree ... (Information for Persons with Recognized Engineering or Geoscience Degrees)	2
Instructions for Completion of Application for Admission	11
2012 Fees	16
Application for Admission	17
Privacy Consent Statement	21

In addition to completing the forms in this package, you must complete and submit the Association's Professional Practice Test with your application. The Professional Practice Test is a test on *The Engineering and Geoscientific Professions Act*, the Association's By-laws and the Code of Ethics for the Practice of Professional Engineering and Professional Geoscience in Manitoba.

A copy of the Professional Practice Test, the Act, By-laws and Code of Ethics may be obtained by contacting the Association office. The Act, By-laws and Code of Ethics are also available on the APEGM website: www.apegm.mb.ca/ActBylawsCode.html.

NOW THAT I HAVE A RECOGNIZED DEGREE...

**(Information for Persons with
Recognized Engineering or Geoscience Degrees)**

WHAT IS APEGM?

The Association of Professional Engineers and Geoscientists of the Province of Manitoba is the regulatory body, comprising all of the practising engineers and geoscientists in Manitoba, responsible for the regulation of the practices of engineering and geoscience in this province.

APEGM is accountable to the people of Manitoba for administering the Engineering and Geoscientific Professions Act. It is APEGM's responsibility to ensure that all persons registered to practise engineering or geoscience in Manitoba are qualified to do so; that no one who is not registered with APEGM is practising engineering or geoscience; and that those who are registered with APEGM are practising responsibly and competently.

WHY DO I HAVE TO BE REGISTERED WITH APEGM?

The Engineering and Geoscientific Professions Act, an Act of the Manitoba Legislature, requires that anyone practising engineering or geoscience legally in Manitoba be, or be working under the supervision of, a registered member of APEGM. If you want to practise engineering or geoscience in this province, therefore, **it is the law** that you be registered with APEGM.

WHAT MUST I DO TO BECOME REGISTERED?

First of all, you must enroll as an Engineer-in-Training (EIT) or Geoscientist-in-Training (GIT) with APEGM. Enrollment as an EIT/GIT is a mandatory pre-requisite to registration. You must be enrolled as an EIT/GIT while you obtain the work experience necessary to become registered as a professional engineer or geoscientist.

NOTE: the word MIT (member-in-training) is the 'umbrella' term for either a GIT or an EIT and is used synonymously with either term.

WHAT ARE THE REQUIREMENTS FOR EIT/GIT ENROLLMENT?

You must either hold an accredited engineering degree or have been deemed academically qualified for registration by APEGM's Academic Review Committee; you must be at least 18 years of age; and you must be legally entitled to work in Canada.

How do I enroll as an EIT or a GIT?

You must complete an application form for EIT/GIT enrollment, submit (an) original final transcript(s) of your marks for review, submit the appropriate fees, and demonstrate that you are familiar with the Engineering and Geoscientific Professions Act ("the Act"), this Association's By-laws ("the By-laws") and the Code of Ethics for the Practice of Professional Engineering and Professional Geoscience ("the Code of Ethics") by successfully completing the online Act, Code of Ethics and Bylaws (ABC) Test. You will also be required to sign a statement in which you agree to be bound by, and to practise engineering or geoscience in accordance with, the Act, the By-laws and the Code of Ethics.

To obtain an application form download it from the website:

<http://www.apegm.mb.ca/MIT.html> . To write the ABC test, email the APEGM office, giving your first and last name as well as a current email address and mailing address. Indicate that you wish to write the ABC test. The staff member will then create a membership number for you which will enable you to log in and write your test online. Instructions for logging in are here: <http://www.apegm.mb.ca/MembersWebsite.html> .

The reference documents are available on the web at:

<http://www.apegm.mb.ca/ActBylawsCode.html>.

Send your completed application to our Registration Coordinator. Once she has received the completed application and the online ABC test has been passed, she will place your application on the agenda for the Registration Committee (RC). Dates for the next RC are here: <http://www.apegm.mb.ca/RC.html>

IMPORTANT: if you've been a student member or an assessment applicant or have previously applied to APEGM, you will already have a membership # with us. Please quote this number when you contact the office. If you are uncertain whether you have a number or not, make sure you ask. We want to minimize the possibility of duplicate records being created for the same person!

What if I fail the Act, Bylaws, Code of Ethics (ABC) Test?

As the test is "open-book" and straight forward, it is unlikely that you will fail. In the event that you do, however, you will be given another opportunity to pass it. Remember, our concern at this point is only that you be familiar with the Act, By-laws and Code of Ethics. (If you fail the test three times, you may be asked to attend an interview, during which you will discuss the purpose and function of the Association, following which you will be given a long-answer test to complete.)

ONCE I BECOME AN EIT/GIT, WHAT NEXT?

EIT/GIT enrollment is only the beginning! As an EIT or GIT, you will be required to participate in a structured program, whereby this Association will guide, record, monitor, and review the progress and quality of your engineering or geoscience work experience, professional development activity, and professional service activity. You will be expected to obtain employment **under the supervision of a registered professional engineer or a registered professional geoscientist who assumes responsibility for your work**, and commence with the acquisition of the appropriate work experience.

WHAT CONSTITUTES ACCEPTABLE WORK EXPERIENCE?

Since January 1, 1995, APEGM requires all applicants for registration to have obtained at least four years' acceptable work experience, normally following academic qualification, under the guidance and supervision of a registered professional engineer or a registered professional geoscientist who assumes full responsibility for the technical quality of the EIT's or GIT's work. At least one year of this experience must be obtained in a Canadian environment.

Acceptable work experience has been defined as comprising the practice of professional engineering or professional geoscience which **must include** the application of theory, as well as exposure to the areas of practical experience, management, communication skills development, professionalism, ethical responsibilities, and the social implications of engineering or geoscience.

Details regarding acceptable work experience are included in the documents entitled "Nature of Acceptable Engineering Work Experience" and "Nature of Acceptable Geoscientific Work Experience". Make sure you review these documents at: <http://www.apegm.mb.ca/ProgressReports.html>

I am planning on taking a Master's degree. Will that count?

If you are enrolled as an EIT or GIT, if you obtain an M.Sc. degree in engineering or geoscience from an institution with a recognized undergraduate program in the same discipline, if your thesis will be completed under the guidance and supervision of a registered professional member, and if that professional member considers the work completed in the preparation of the thesis to comprise the practice of engineering or geoscience, you **may** receive work experience credit for your thesis work. You should keep track of the time spent in preparing your thesis, and you should submit a progress report for every six months' experience obtained. The Experience Review Committee will determine how much credit you will receive for your thesis work, as it progresses.

How about a Ph.D. degree, and post-doctoral research work?

Provided that you are enrolled as an EIT or GIT while completing your research work, and provided that it satisfies the criteria for “Nature of Acceptable Engineering Work Experience” or “Nature of Acceptable Geoscientific Work Experience”, the work experience obtained during the preparation of the doctoral thesis, or during post-doctoral research work, may well qualify as acceptable work experience. Again, progress reports should be submitted for every six months’ experience obtained.

What if I’m working in an area different from the area of my degree?

The purpose of the work experience requirement is to demonstrate that you are able to put your education into practice. If you are working in an area different from your discipline of graduation, you may well require additional training or education, which will mean that you will likely require more than the four-year minimum to obtain sufficient qualifying work experience. Every case is different however, so please ask if you are uncertain.

How will I know if my work experience will be acceptable to the Association?

By being an EIT or GIT, you will be participating in a structured program to guide, record, monitor, and review the progress and quality of your work experience.

As part of the Association’s Mandatory Pre-Registration Program, you and your supervisor are required, for every six months of your experience (or more often, if you change jobs), to submit to the Association progress reports describing your work experience. Our Experience Review Committee will consider these reports, and will notify you of any concerns it may have regarding any of your work experience.

What if I already have some work experience before I become an EIT or GIT?

Normally, the Experience Review Committee will only consider up to three months’ experience obtained within the Province of Manitoba prior to enrollment as an EIT/GIT with this Association.

If you have recently moved to Manitoba, and have obtained engineering or geoscientific work experience elsewhere, you are urged to submit progress and supervisor reports for all engineering or geoscience experience obtained outside the province as soon as possible after enrollment as an EIT/GIT.

Progress forms which contain sections to be completed by the supervisor and mentor (as applicable) are available at <http://www.apegm.mb.ca/ProgressReports.html> . Our Experience Review Committee will consider these reports, and will notify you as to the acceptability of your previous work experience. You and your supervisor(s) will be required to submit progress reports every six months, until you are eligible for registration. All feedback from the Experience Review Committee goes back to your online profile, so you must log in to check.

What if some of my work experience was obtained in another country?

No problem! If you can provide references from professional engineers or professional geoscientists (or the foreign equivalent), foreign work experience may count for **up to three years** of your work experience. **Twelve months** of your work experience, however, must have been obtained in Canada or in a Canadian environment. For those who've gone through the academic assessment program, only work experience gained after the deemed date of academic qualification will be considered. (Check the letter of academic qualification for this date.) You are also strongly advised to view the presentation at: <http://www.apegm.mb.ca/pdf/Registration/MIT/pre-registration.pdf>

Information particularly relevant to people who have gone through the Academic Assessment process starts on page 19 of the presentation, though it is helpful if you completely review the entire presentation. To claim for foreign work experience you and your supervisor(s) should complete one progress report per position. The supervisor(s) should be recognized as an engineer or geoscientist in your country of origin.

What if there is no professional engineer or professional geoscientist supervising my work?

The Engineering and Geoscientific Professions Act requires that all engineering and geoscientific work be performed by, or “under the immediate and direct personal supervision and guidance of”, a professional engineer or geoscientist “who assumes all responsibility for the work”. There must, therefore, be a professional engineer or a professional geoscientist supervising your work.

If there is no professional engineer or professional geoscientist at your place of employment, and if your work involves the practice of professional engineering or professional geoscience, you must have regular contact with a professional engineer or professional geoscientist who assumes all responsibility for your engineering/geoscience work (a mentor). Ideally, your employer will engage the professional engineer or professional geoscientist to serve as a consulting supervisor to you while you obtain the necessary experience.

You will be asked to identify your supervisor(s) in your progress report forms; and you will be expected to advise the Association immediately if your supervisor ceases to assume responsibility for your work and you are unable to find another professional member to supervise your work. Both the mentor engineer or geoscientist and your direct (non-member) supervisor should complete their portions of the progress forms for each 6 month period.

DOES THE ASSOCIATION HAVE ANY OTHER PRE-REGISTRATION REQUIREMENTS?

Yes. In addition to acquiring four years of acceptable work experience, and in order to prepare you for registration at the end of this “apprenticeship” period, the Association requires that you:

- a) complete a program of continuing education/professional development;
- b) engage in a number of volunteer service activities; and
- c) pass the National Professional Practice Examination.

What are the Association's continuing education/professional development and volunteer service requirements?

Throughout your formative period, you will be expected to enhance your professional and personal development by taking courses and seminars, attending conferences, becoming involved with technical and professional organizations, etc., and generally developing an appreciation of, and a commitment to, life-long learning. As a part of the Association's Pre-Registration Program, you will be required to engage in a minimum number of hours of continuing education/professional development activity annually. You are also expected to develop an appreciation of the volunteer nature of the profession, and to participate in volunteer service activities each year.

Details regarding acceptable activities, courses, etc. are at the website.

How will the Association monitor my continuing education/professional development and volunteer service activities?

Upon your enrollment as an EIT or GIT, and every six months thereafter until you are registered, you and your supervisor(s) will be asked to submit semi-annual progress report forms, detailing your work experience. These forms will be examined, and you will receive feedback from APEGM.

How do I find out about the Professional Practice Examination?

The Professional Practice Examination is offered twice a year: once in April, and once in October. The examination is a national examination, administered by the Association of Professional Engineers, Geologists and Geophysicists of Alberta (APEGGA).

The text books are available from the McNally Robinson bookstore in Winnipeg or from the APEGGA office. Details and application forms are available from the APEGM web site (www.apegm.mb.ca). You should allow two to three months to study the materials before writing the examination.

When will I be eligible to take the exam?

You are be eligible to take this exam at any point while you are enrolled in the pre-registration program or on the exam program. **You will not be allowed to register as an engineer or geoscientist until you have successfully completed the PPE.**

What if I fail the Professional Practice Examination?

You will be required to repeat it at your own cost.

IS THERE ANYTHING ELSE?

This Association also recommends that you establish informal relationships with professional members, other than your supervisor, to provide advice, support, and impartial, third-party guidance.

Finally, this Association has an English language proficiency requirement, and reserves the right, where appropriate, to require you to demonstrate proficiency in oral and written English.

WHAT DO I DO WHEN I'VE OBTAINED THE FOUR YEARS' EXPERIENCE AND PASSED THE PROFESSIONAL PRACTICE EXAMINATION?

As an EIT or GIT, you will be guided through the Pre-Registration Program, to registration. Once the Experience Review Committee is satisfied with your work experience, your professional development activities, your volunteer service activities, and your performance on the professional practice examination, it will invite you to “apply” for registration by naming professional members who are familiar with your work and can provide character references on your behalf.

What will you be asking my referees?

Your referees will be asked to verify your work experience, to provide information on your growth in terms of both technical and professional judgement, and to provide opinions as to your professionalism, integrity, character, ability to work effectively as part of a team, ability to assume responsibility, commitment to life-long learning, etc.

What Next?

Your references will be reviewed by the Experience Review Committee and, once accepted, your file will be placed before the Registration Committee. Upon approval of your application by the Registration Committee, you will be a registered professional member.

WHAT WILL ALL OF THIS COST?

To enroll as an EIT or GIT with APEGM, you must pay the Association's non-refundable Admission Fee plus the annual dues for the year. (All fees quoted include GST.) The fees are available at <http://www.apegm.mb.ca/Dues.html>

While enrolled as an EIT or GIT, you will be required to pay the annual dues, plus GST.

The Professional Practice Examination fees are available here:

<http://www.apegm.mb.ca/PPE.html> and here:

<http://www.apegm.mb.ca/pdf/Registration/MIT/PPEApplication.pdf>

When you are invited to provide references for registration, you will be asked to pay a lump sum which represents the difference in the professional member dues and the EIT/GIT dues for the number of months which are remaining in the year.

Please note that Council establishes all fees and dues annually.

WHAT IF I MOVE TO ANOTHER PROVINCE BEFORE I BECOME REGISTERED?

APEGM has adopted national guidelines which require a minimum of four years' acceptable work experience. While the experience requirements of the professions may vary slightly from province to province, the experience you obtain here will certainly be eligible for consideration by another association; and your successful completion of APEGM's Professional Practice Examination, which is a national examination, will exempt you from having to write a similar examination in any other province.

Our advice to you would be to contact the engineering/geoscience association in your new province as quickly as possible, to establish its requirements. On request, APEGM can contact the other association if needed.

AND IF I HAVE ANY QUESTIONS?

Please call the APEGM office, at 474-2736, between 8:30 a.m. and 4:30 p.m., Monday to Friday. Our staff will welcome your questions, comments and suggestions. You are also urged to check out our website - www.apegm.mb.ca, frequently, in order to get details on any updated information. It's important that you review the information here: <http://www.apegm.mb.ca/MIT.html>

Once you are enrolled as an EIT or GIT, the Association's publication will keep you updated as to EIT/GIT requirements.

May 19, 2011

***INSTRUCTIONS FOR COMPLETION OF
APPLICATION FOR ADMISSION OR REINSTATEMENT***

(See also <http://www.apegm.mb.ca/Reinstatement.html>)

Everyone wishing to practise engineering or geoscience in Manitoba must complete the "Application for Admission". This document provides instructions for the completion of the "Application for Admission" form, which should be either printed or typed, and which **must be submitted with the appropriate fees.**

1. Please mark, with an "X", your intended type of application.

If you have never been registered as a Professional Engineer or a Professional Geoscientist you may qualify for enrollment as a ***Member-in-Training (MIT)*** if you hold a Canadian Engineering Accreditation Board (CEAB)-accredited degree, or if this Association's Academic Review Committee has deemed you academically qualified for registration.

Please note: MIT (otherwise known as EIT/GIT) enrollment is a mandatory pre-requisite to registration. All engineering and geoscience graduates are required to enroll as EITs or GITs prior to obtaining work experience in Manitoba. For those who have obtained their work experience outside of Manitoba, and who are not currently registered as professional engineers, geologists, geophysicists, or geoscientists elsewhere in Canada, enrollment as EITs or GITs, upon arrival in Manitoba, is mandatory.

If you are reinstating your enrollment as an EIT or a GIT, please provide the date of expiry of your previous enrollment.

You may qualify for ***Registration as a Professional Engineer under the Agreement on Internal Trade (AIT)*** if you:

- (a) are currently registered as a professional engineer elsewhere in Canada;
- (b) have obtained at least four years of acceptable engineering work experience;
- (c) have not been the subject of any disciplinary action by, and have no disciplinary action pending against you by, any other engineering association in Canada; and
- (d) are not a former member of APEGM **who was de-registered.**

Note: Former members who qualify for registration under the AIT must identify, in Section 1, that they are former members of APEGM.

You may qualify for ***Registration as a Professional Engineer under US Mobility*** if you:

- (a) are currently registered as a professional engineer in at least one American State;

- (b) have obtained at least four years of acceptable engineering work experience;
- © have passed the NCEES Fundamentals of Engineering (FE) exam and Professional Engineering (PE) exam and have graduated from an ABET/EAC accredited university. Please arrange to have your NCEES record forwarded to APEGM.
- (d) have not been the subject of any disciplinary action by, and have no disciplinary action pending against you by, any other engineering association; and
- (e) are not a former member of APEGM **who was de-registered.**
- (f) have written the Professional Practice Examination (PPE)*

*Note: Applicants who qualify for US Mobility must initially apply as Temporary licensees. This will allow them to write the PPE while Temporary licensees, and then allow them to become registered once they have passed the PPE. Please review: <http://www.apegm.mb.ca/Licensee.html>

You may qualify for **Reinstatement to Membership** if you have been registered as a professional engineer or geoscientist with this Association in the past.

You may qualify for **Registration as a Professional Geoscientist** under the AIT if you:

- (a) are currently registered as a Professional Geoscientist, Professional Geologist, or Professional Geophysicist elsewhere in Canada;
- (b) satisfy APEGM's current admissions criteria;
- (c) are not a former member of APEGM who was de-registered;

Note: If you applied unsuccessfully for registration in another Canadian jurisdiction, please provide details.

You may qualify for a **Temporary Licence to Practise Engineering** in Manitoba if you:

- (a) do not qualify for US Mobility and;
- (b) are not a resident of Manitoba and;
- (c) are a professional engineer (P.E.) in the U.S.; and
- (d) have obtained at least four years acceptable engineering work experience or;
- (e) do qualify for US Mobility
- (f) Meet criteria c and d above; and
- (g) Have not yet written the National Professional Practice Examination.

See: <http://www.apegm.mb.ca/Licensee.html> for more information.

2. Please check all applicable boxes.
3. Please provide your **full** legal name. If your application is successful, this name will appear on your certificate, in full. Your seal (where applicable) will contain your surname and the initials of your given names.

If you are providing documents containing a name different from your current legal name, please include proof of name change (e.g. marriage certificate) with your application.

Please indicate whether you wish APEGM correspondence to be sent to your home or business address.

4. Please note that English language competency is a requirement for membership in APEGM, and that APEGM reserves the right to require applicants to demonstrate proficiency in English.

If English is not your first language, and you have not passed a Canadian Level Benchmark or Test of English as a Foreign Language (TOEFL) or equivalent, and you did not study at a university where English was the language of instruction, please attach a letter to your application, explaining why you feel you are competent in the use of the English language.

5. Please note that applicants for ***EIT and GIT Enrollment*** must submit, or arrange to have submitted, **original final transcripts of marks indicating all courses taken and the final mark for each.**

Applicants whose academic credentials were assessed by this Association's Academic Review Committee are not required to submit transcript of marks.

Former members of APEGM and applicants registered with other Canadian engineering/geoscience jurisdictions are not required to submit transcripts of marks. This Association will contact your current and, where applicable, previous Association(s) for confirmation of your academic qualifications.

6. A Detailed Chronological resume is required for the following applicants:

1. Applicants who are currently registered in any other province.
2. Applicants who resigned in good standing from another province, and are not currently registered in any province.
3. Applicants who resigned in good standing from APEGM, are not currently registered with any province, and have been resigned from APEGM for greater than **one (1) year**.
4. Applicants who are applying for Temporary licensure or U.S. PE Mobility. Temporary licensees should also provide a description of the work to be undertaken in Manitoba, its location, and for whom.
5. Applicants who were de-registered with APEGM for non-payment of dues, have not reinstated **within 6 months of the de-registration date**, and are not currently registered in another province.
6. Applicants who have been retired or on deferred dues for greater than **four (4) years**, and are not currently registered in another province. NOTE: Retired and Deferred dues applicants who wish to revert to practicing status will be

processed by the Continuing Competency Committee in the near future. Contact the APEGM office for more information.

This report should be continuous, including reference to periods of unemployment and non-engineering or non-geoscientific employment.

If you fit category **2, 3, or 5** above, you are required to demonstrate that you have acquired four years' acceptable engineering work experience during the past eight (8) years. Your resume should, therefore, be detailed, and at least three professional engineers should be named as referees, including one referee for each position held. The referees should be able to vouch for the four (4) years of experience claimed. We will be contacting your referees, so please ensure that you have provided their current email and mailing addresses.

If you are applying for **MIT (EIT or GIT) Enrollment** and already have some out-of-province engineering or geoscientific work experience, please note that it is not necessary to provide a resume. You will be asked, following enrollment as an EIT or GIT, to complete a Progress Report Form for each position you have held if you want to have credit towards the 48 month experience requirement.

7. Applicants for **EIT and GIT Enrollment** must pass the Act, Bylaws and Code of Ethics (ABC) test on Manitoba's Engineering and Geoscientific Professions Act By-Laws and Code of Ethics.

Applicants for **Reinstatement** who did not resign in good standing are required to pass the ABC test.

Applicants for **Temporary Licensure** must pass the ABC test. **Temporary Licence Renewal** applicants are required to pass the test every three years.

Applicants for **US (PE) Mobility** must pass the ABC test.

Applicants for **EIT and GIT Reinstatement** are required to pass the long-answer mail-in test on Manitoba's Engineering and Geoscientific Professions Act and APEGM's By-Laws and Code of Ethics.

Note: The ABC test supersedes the hard copy PPT test. Those who have passed the PPT test with a mark of 90% or higher may not be required to take the ABC test.

To write the ABC test, email the APEGM office, giving your first and last name as well as a current email address and mailing address. Indicate that you wish to apply to APEGM and wish to write the ABC test. The staff member will then create a membership number for you which will enable you to log in and write your test online. Instructions for logging in are here:

<http://www.apegm.mb.ca/MembersWebsite.html> . The reference documents are available on the web at: <http://www.apegm.mb.ca/ActBylawsCode.html> . Once the Registration Coordinator receives online notification that you have passed the test AND she has received your completed application, your file will be placed on the agenda for the next available Registration Committee (RC) meeting. Dates for the next RC are here: <http://www.apegm.mb.ca/RC.html>

IMPORTANT: If you've received a membership number from us, please make sure this is indicated in your application.

8. All applicants are required to sign the Declaration.
9. Applicants for reinstatement who have never written a Professional Practice Examination (PPE) will be required to write a PPE if they've had ten (10) years or less of registered practice in Canada.
10. Any applicant for **Reinstatement** whose membership was terminated due to non-payment of dues is required to submit a letter, satisfactory to the Registration Committee, explaining why he or she allowed the membership to lapse.

All applicants for **Reinstatement** should indicate whether they still have, in their possession, their APEGM seals and/or certificates.

All applicants are required to provide details, where applicable, of disciplinary action and/or convictions.

11. All applicants must sign and date the declarations. Any information submitted that is determined to be false may result in refusal of the application.
12. For information on fees, please see fee schedule.

All applicants for **EIT Enrollment and GIT Enrollment** and **Registration** as Professional Engineers or Geoscientists are required to pay the non-refundable registration fee.

All applicants for **Reinstatement to Membership** whose names were removed from the register for **non-payment of annual dues** are required to pay the de-registration fee in addition to the registration fee and the annual dues.

All applicants for **Temporary Licensure** are required to pay the licence fee.

The Canadian Goods and Services Tax (G.S.T.) is payable on all fees.

Preferred E-mail Address: Home Business

Date of Birth: _____ Place of Birth (optional): _____
MM / DD / YY City/Country

Citizenship: Canadian Citizen
 Admitted to Canada as a permanent resident in _____ Year
 Other _____

4. LANGUAGE COMPETENCY: (Select all that apply.)

See Item #4 in Instruction for completion of Application for Admission or Reinstatement

- English is my first language.
- Canadian Level Benchmark (CLB) test. Written: _____ Oral: _____ Listening: _____ Reading: _____
- I have written the Test on English as a Foreign Language (TOEFL) or equivalent.
Test: _____ Date: _____ Score: _____
- I completed a degree at a university where English was the language of instruction.
- Attached is a letter explaining why I believe I am competent in the use of the English language.

5. ACADEMIC QUALIFICATION:

(Please list all university degrees/diplomas received, and attach additional information as required.)

<i>Institution</i>	<i>Location</i>	<i>Diploma or Degree Received</i>	<i>Program</i>	<i>Date of Graduation m / d / y</i>

In addition, I was required by _____, to complete
Canadian Association/Ordre/U.S. State Board
the following examinations, and I received the following grades:

Applicants for MIT (EIT / GIT) please check one box:

- Original transcripts for all degrees obtained are enclosed.*
- Original transcripts are being forwarded directly from the institution(s).*

*transcripts must state: final grades in all courses; degree and date on which it was obtained

Applicants for U.S. (P.E.) Mobility please check one box:

- NCEES record(s) with details on PE, FE and engineering degree are being forwarded to APEGM.

6. ENGINEERING/GEOSCIENTIFIC WORK EXPERIENCE: (Does not apply to MIT applicants)

A chronological report (ie. resume, c.v.) detailing a minimum 4 years of relevant engineering/geoscientific work experience, at least one year of which was in Canada or the U.S., within the last 8 years, is required for all applicants indicated in Instruction #6.

7. PROFESSIONAL PRACTICE TESTS: (Please review instructions carefully)

i) Has online Act, Bylaws, Code (ABC) Test been enabled? No, enable link: Yes:

IMPORTANT: If 'Yes' indicate your APEGM # here: _____

ii) My hard copy completed Professional Practice Test is enclosed. Yes No

iii) I have completed the Professional Practice Test as a student member through:
 APEGM University of Manitoba's *Introduction to Engineering* Course

iv) My Professional Practice Test - Long Answer is enclosed. Yes No

Temporary Licensees Only:

v) I last completed the Professional Practice Test or ABC test for temporary licensure in _____.
Year

8. DECLARATION:

I have personally reviewed and am familiar with *Manitoba's Engineering and Geoscientific Professions Act, By-Laws and Code of Ethics for the Practice of Professional Engineering and Professional Geoscience* and I agree to practice the profession of engineering or geoscience in conformance with the requirements contained therein.

I agree _____
Signature Date

9. PROFESSIONAL PRACTICE EXAMINATION:

I have successfully completed a three-hour, closed-book Professional Practice Examination:

Yes No If Yes, for _____ in _____.
Canadian Association/Ordre Year

10. OTHER INFORMATION:

i) Have you ever been disciplined by a Canadian Engineering Association or a U.S. State Licensing Board. Yes No

ii) Do you have any disciplinary action pending against you, by a Canadian Engineering Association or a U.S. State Licensing Board, either as an individual or as a corporate officer. Yes No

iii) Have you ever been convicted of a criminal offence in any jurisdiction. Yes No

(If you answered yes to any or all of the above, you are required to provide details)

iv) I enclose a letter to the Registration Committee explaining why I allowed my membership to lapse.
 Yes Not applicable

v) I still have my APEM/APEGM certificate. Yes No Not applicable

vi) I still have my APEM/APEGM seal. Yes No Not applicable

11. DECLARATIONS:

The following declarations are essential to the processing of your application. Please read, complete and sign the following declarations. Please see our privacy policy at www.apegm.mb.ca for further details.

1. Yes No I declare that all of the above statements are complete and correct to the best of my knowledge and belief. I understand that a false statement or failure to provide the information requested may, at any time, disqualify me from registration. I authorize APEGM to obtain such additional information as it may deem appropriate, from such additional sources as it may deem appropriate, for the processing of my application. I hereby agree to abide by the terms of The Engineering and Geoscientific Professions Act and the Association's By-laws and Code of Ethics.
2. Yes No For MITs: I authorize APEGM to keep any progress reports, supervisor reports and professional member supervisor reports on file. I understand that APEGM is authorized to allow me access to any reports created by myself, but is not authorized to allow me access to any reports created by my supervisor or professional member supervisor or mentor without the consent of the supervisor or professional member supervisor who provided the comments.
3. Yes No I authorize APEGM to release details of the results of any academic or experience review assessments to my employer(s) or potential employer(s).
4. I understand that APEGM will retain all information contained herein and any appended documents, including but not limited to discipline information, work history and information regarding academic qualification for the purposes of processing my application.
5. I understand that it is my responsibility to maintain my up-to-date contact information with APEGM. If I fail to do so, APEGM will not be held responsible for any consequences related to inaccurate contact information including missed mailings, failure to receive renewal forms or routing of personal information to other persons not authorized to view such information.
6. for MITs: I authorize APEGM to provide to the supervisors the number of months of experience already credited or potentially credited if requested by the supervisor. I understand that It is my responsibility to keep my own back-up copies of my own progress report(s) for my records.
7. I understand that if I request personal information, APEGM is required to make reasonable efforts to confirm my identity. In order to do this, APEGM may ask one (1) or more authentication questions, such as date of birth or/and home address, to confirm my identity.
8. I understand that APEGM is required by law to provide certain applicant data information to the Fairness Commissioner appointed under the Fair Registration Practices in Regulated Professions Act (the "FRP Act"), but that such information will not reveal the identity of any applicant. Such information may be used by the Fairness Commissioner to prepare reports and for other purposes under the FRP Act. I consent to the personal information that I have provided being used for such purposes.

Answering "no" to any of the above (except #3) may result in your application being rejected. If neither box is checked in any of the above declarations we will assume that consent is not given, which may result in your application being rejected or delayed.

Privacy Consent Statement

APEGM has developed a privacy policy in response to the federal government's Personal Information Protection and Electronic Documents Act (PIPEDA) Bill C-6. Please visit the APEGM website: www.apegm.mb.ca for details on the APEGM privacy policy, or contact the APEGM office.

APEGM sponsors a range of products and services that provide value-added benefits to members and their families. In so doing, APEGM provides your home address to the suppliers of these products and services, so that they may provide you with up-to-date information on their services and products.

PLEASE NOTE: If you agree to have your personal contact information provided to these mailing lists then later decide to strike your name from these mailing lists, you must contact the supplier(s) directly in order to have your name removed. APEGM will provide a list of suppliers upon request.

Please **do not include** my home address on the APEGM member service mailing lists.

*If the above box is not checked, your home address will be included on the APEGM member service mailing lists.
