Outstanding Service Award

to

JOHN WILFRID JAMES LEWIS

Dipl. E.E., P. Eng.

Born July 23, 1927

Hornsey, England

John Wilfrid James Lewis became registered with this Association in November 1957, and since that time has generously donated his many and varied talents to Association activities.

He served on the Public Relations Committee from 1959 to 1965, and the Minutes which he produced while he was Secretary of that Committee were undoubtedly the most enjoyable and humorous Minutes in the Association's history. Because of his obvious literary talent he was recruited by the Bulletin Committee in 1966, and he is now the Editor. Brevity and Wit have been his constant trademark. Concurrently he has also served for four years as a member of the University Liaison Committee, acting as Chairman for three of the four years.

His unfailing and ever-present sense of humour has enlivened many Association meetings.

Although he has only been a member of the Association for nineteen years, he has twenty-one years of committee work to his credit, and for this outstanding contribution, always seasoned with wit, the Association is pleased to confer the Outstanding Service Award.
