

Engineer, Maintenance (38717)

Location: Cigar Lake, SK

Reporting to the chief engineer, maintenance in the maintenance engineering department, your knowledge of mechanical equipment and design will be relied upon to support surface and underground operations. You will be required to solve complex technical problems using formal techniques to evaluate systems, equipment and failures. You will maximize equipment availability, reliability and performance through effective problem solving and proactive maintenance practices. This will involve developing and refining asset specific strategies to improve equipment health and to prevent or eliminate equipment failure. As well, in support of the seasonal maintenance shutdown, you will engage in planning, coordination and execution of electrical refurbishment work at site. You will also be required to support site capital and expense projects ensuring project deliverables are met in the form of scope, schedule and budget.

Requirements of the position:

- Bachelor's degree in mechanical or industrial engineering
- Five to eight years of relevant industry experience
- Equivalent combination of education and work experience will also be considered - see below note on experience.
- You must be eligible for registration with the Association of Professional Engineers and Geoscientists of Saskatchewan (APEGS)
- Strong communication and problem-solving skills
- Work a rotational schedule and commute to site by aircraft

Assets:

- Exposure to predictive maintenance techniques and technologies
- Experience in an underground mining environment
- Experience with computerized maintenance management system, preference for SAP experience
- Project Management Professional (PMP Certification)
- Maintenance Management Professional (MMP Certification)

Preference will be given to Residents of Saskatchewan's North (RSN).

We are strengthened by diversity of experiences and encourage applicants with various levels of expertise to apply, as equivalent combination of education and work experience are considered.

Applicants will be considered for a level within the job progression which is appropriate to their qualifications.

We offer:

- **competitive pay**
- **superior benefits**
- **employee share ownership plan for all employees**
- **Live Better wellness program**
